Activity: Remedial Investigation/Feasibility Study

1. Progress this Period - May 1984:

During the first half of the period this project was essentially on hold, pending authorization to perform Initial Activities in order to prepare detailed operational plans concurrent with finalization of the Work Plan.

On May 16, Mr. Robert McKnight, Regional Site Project Officer (RSPO) directed the Remedial Planning Office (REMPO) to finalize the Work Plan without the detailed plans in order to provide a basis for negotiation with responsible parties.

2. Problems Resolved:

Interim authorization is no longer a prerequisite to completion of the final Work Plan.

3. Anticipated Problem Areas and Recommended Solutions:

The NUS Region II Field Investigation Team (FIT II) will not be able to participate in Work Plan finalization without a TDD. Mr. McKnight is pursuing this matter with Mr. Mark Haulenbeck, Region II EPA FIT Regional Site Project Officer (RSPO). FIT's participation in Work Plan finalization will be to review cost, scope, schedule for the Remedial Investigation (RI). In the event that FIT cannot participate at this time, further modification of the Work Plan will be required at a later date.

4. Deliverables Submitted: None

5. Upcoming Events:

The final Work Plan will be submitted in mid-June.

6. Activities Planned:

The remainder of the review comments will be incorporated and a final draft of the Work Plan will be prepared.

7. Key Personnel Changes: None
